

Safe Internet usage Policy

Objective:

Little Learners aims to provide a safe and secure environment to the staff and children and takes all measures to ensure these are expanded to all media of communication and information including the internet.

Policy:

We maintain a strict policy of regulating the use of the internet within the classroom setting and to maintain regular checks to ensure that children are not exposed to inappropriate information or unregulated access to the web.

Procedure:

To uphold the policy, we must ensure the following: Internet usage and safety:

- We have the duty to ensure children in our nursery are not exposed to any inappropriate information.
- Teachers will guide children in online activities that will support learning outcomes planned for their age and maturity
- The use of online services have to be approved by the manager before being implemented in the classroom. Internet usage to be included in the weekly planning submitted to the manager
- The sites will be pre checked by the Teacher or Manager prior to the lesson
- Children will use the internet with the direct support and supervision of staff
- Internet access will be planned to enrich and extend learning activities

Nursery Website and Social Media

- The nursery website

The contact link leads to an email directly to the manager at:

→
